Engineering ■ Surveying ■ Planning ■ Landscape Architecture

## Water & Wastewater Engineering

- Municipal Engineering
- Transportation Engineering
- Construction Engineering
- Water Resources Engineering
- Land Development Engineering
- Structural Engineering
- Surveying Services
- Planning & Landscape Architecture

As communities grow, officials encounter complex decisions in planning for the expansion of water and wastewater infrastructure to serve commercial private and residential developments. At the same time, community leaders must take proactive roles to ensure existing infrastructure is well maintained and compliant with environmental regulations. From project planning, through complete design and construction management, SEC Group, Inc. puts you in control of your community assets, by providing innovative and cost effective solutions to infrastructure needs for the public and private sectors.

### Planning Phase Services

- Water and Sewer Facility & Master Planning
- Pilot Studies, Treatment Analysis, I&I / SSES, GIS Mapping

### Engineering Design Phase Services

- Hydraulic Modeling, Water Supply Storage & Treatment
- Wastewater Collection and Treatment Systems
- SCADA, Controls and System Integration

### Community Assistance

- Grant & Loan Administration, Regulatory Assistance, Compliance and Permitting
- Rate Studies, Ordinances, Vulnerability Assessments, Asset Management

### Construction Phase Services

- Contracts & Bidding
- Construction Management
- Staking & Layout

### Our services include:

- Water and Sewer Facility and Master Planning
- Studies and Treatment Analyses
- Hydraulic Modeling, Water Supply Storage & Treatment
- Wastewater Collection & Treatment Systems
- Grant and Loan Administration
- Regulatory Assistance, Compliance & Permitting
- Vulnerability Assessments

# Uncommon Commitment

*Every Project. Every Time.*
